P&A #336

*Genuine*  
PARTS & ACCESSORIES

## 1987-1/2 HAYES REAR BRAKE MASTER CYLINDER INTERFERENCE WITH P&A HIGH PERFORMANCE EXHAUST SYSTEMS BY KERKER

Please read this bulletin carefully. Circulate it to your parts and service departments, sales people, etc. to make them aware of what is required to sell and/or install High Performance Exhaust Systems by Kerker on Evolution XL, FXR, and FXST models. The current 1987 Genuine Accessories Catalog includes asterisks (\*) and a special note by P/N's 65211-86, 65212-86, and 65213-86 on page 27. This bulletin will enable you to correctly answer questions that your customers are sure to ask.

### CAUTION

See Figure 1. A new Exhaust System Bracket, P/N 65250-87, **MUST** be used on 1987-1/2 and later FXR's equipped with the Hayes Rear Brake Master Cylinder when installing FXR Hi-Performance Exhaust Systems by Kerker (P/N 65212-86).

See Figure 2. The bracket (P/N 65245-86) currently supplied with the FXR Hi-Performance Exhaust System by Kerker allows inadequate clearance and may break off the plastic inlet fitting on the new 1987-1/2 Hayes Rear Brake Master Cylinders.
