PAB #426

INSTALLATION OF NEW SCREAMIN' EAGLE® HIGH FLOW CARB & AIR CLEANER KIT

P/N 91731-88

It has come to our attention that there is some confusion as to what is required to install the above-mentioned Kit on 1200/1340 Big Twin and XL model vehicles intended and used for competitive riding applications.

Although there was a layout mistake on Page 46 of the 1989 Genuine Accessory Catalog (photos were incorrectly positioned) all part numbers, descriptions and model applications are correct.

INSTALLATION OF THE 91731-88 CARB & AIR CLEANER KIT REQUIRES ONE OF THE FOLLOWING SUPPORT BRACKET/ADAPTER KITS FOR PROPER INSTALLATION (MUST BE PURCHASED SEPARATELY).

<u>PART NUMBER</u>	<u>MODEL APPLICATION</u>
29022-88	1200/1340 BIG TWINS
29221-88	'86-'89 XL EVOLUTION
29297-85	'76-'85 XL CAST IRON

DO NOT ATTEMPT TO USE LOWER SUPPORT BRACKET KITS LISTED ON PAGE 8 OF THE 1988 ACCESSORIES CATALOG. THESE KITS WERE DESIGNED FOR INSTALLING OUR PREVIOUS HIGH FLOW CARB & AIR CLEANER KIT 91731-85A AND DO NOT CONTAIN ALL THE COMPONENTS NECESSARY TO INSTALL THE 91731-88 KIT (I.E., CARB-TO-MANIFOLD SPACER, ETC.).

CAUTION: Harleys® equipped with Screamin' Eagle® high-performance engine parts may not be used on public roads and in some cases must be restricted to closed course competition, because these parts may impair the vehicle's emission system performance and/or increase its noise level. Installation of Screamin' Eagle® parts could also void any new vehicle warranty. ENGINE RELATED PERFORMANCE PARTS ARE INTENDED FOR THE EXPERIENCED RIDER ONLY.
