PAB # 503

June 11, 1993

One of our largest endeavors in the Genuine O.E. Service Parts area is to provide you with the highest quality current and non-current parts available. For us to remain a customer service orientated company, we need to offer the widest spectrum of parts to service "our" customers. Unfortunately, for us to meet this commitment, there are times when we must increase our prices. Due to low demand and increased manufacturing costs this is one of those times. We apologize for any inconvenience this may cause you. Please note the following price changes in your Spring '93 price books:
