#### Summary and Parts Affected

- The Bluetooth Dongle connects a customer's mobile device to their 2021 Harley-Davidson CVO Road Glide and CVO Street Glide. In conjunction with the Harley-Davidson audio app, the Bluetooth Dongle is a nice to have item for CVO customers who want to add more audio components, perform system setups, and have additional audio equalizer capabilities. This is an optional component available through Parts and Accessories.
- The Harley-Davidson audio app is the companion app for the Harley-Davidson® Audio powered by Rockford Fosgate® system. This app makes it easy to install and setup new audio components and configure the audio system by using an easy step-by-step process. Once the system is setup, the app offers additional features such as 7-band equalizer to tailor the audio experience as well as diagnostics to help identify any issues.
- The audio app is called Harley-Davidson Audio powered by Rockford Fosgate.

The following part numbers are required:

- Bluetooth Dongle (Part No. 41000771)
- Dual Lock (Part No. 76434-06)
- Bluetooth Dongle Harness (Part No. 69202641)
