

This Bulletin Supersedes No. 486

### 1965 SERVICE MANUALS

**CONFIDENTIAL**

This service bulletin supplies service manual information for the current model season for all models except gasoline and electric cars which are handled in a separate service letter.

Service Manuals for 1965 models are now available including the new Model M-50.

Two types of manuals are being supplied - the complete service manual and the service manual supplement. The complete manual covers 1959 to 1965 models. The service manual supplement (not a complete manual) is for converting earlier service manuals - so they will cover current models.

Order complete service manuals covering 1959 to 1965 models, or order 1965 service manual supplements to bring your older manuals up to date, according to part numbers and descriptions listed below.
