

SHOCK ABSORBERS / 1980 XL MODELS

A quantity of 1980 XL models have XLCR shock absorbers installed. The affected VIN range is 3A 27367 J0 through 3A 30533 J0. These XLCR shock absorbers were modified to incorporate the same spring and damping rate as the standard XL shocks.

The only difference between the two is appearance. The

standard XL shock is black with a chrome spring. The modified XLCR shock is chrome with a chrome spring.

When replacement is necessary, these shocks should be replaced in pairs with standard XL shocks, Part No. 54568-79B.
