## FENDERS

### Tips

#### **2005 XL Model Wire Harness Elbow:** <sup>1)</sup>

If you remove the RH wire harness elbow (73205-05), it is recommended to install washer (6859M) on the mounting bolt when reinstalling the elbow.

This is to prevent future damage to the elbow's mounting hole.

This washer was installed in production as of February 27, 2005.
