

EFI Race Tuner Kit Changes

The Screamin' Eagle EFI Race Tuner Kit, part number 32107-01A, has been upgraded with Screamin' Eagle Stroker calibrations, V-Rod recalibration capability, and the ability to view data in real time. The new CD included in this kit will function with the original EFI Race Tuner Kit.

Be sure to delete your older Data Mode and Tuning Mode files when loading this latest version.

Your -01 kits can be upgraded to the -01A by replacing the CD. The new CD, part number 32117-01A, is available.
