Recall 0118 Clarification:

- If you have a vehicle on the “A” list, you are required to first inspect the vehicle, and then **if necessary**, replace the fuel valve assembly. Follow the Credit Procedure on page 4 of Service Bulletin M-1167; fill out a Dealer Service card with the Service Letter ‘I’, if no replacement is required. Use Service Letter “C” if replacement was required.
- If you have a vehicle on the “B” list, you are required to replace the fuel valve assembly. If you did not receive a “B” list, you do not have any vehicles on this list. When these vehicles are brought into your dealership, inspect the vehicle; place an order for the applicable part, then replace the fuel valve assembly. Once the repair is complete, follow the Credit Procedure on page 4 of Service Bulletin M-1167; fill out a Dealer Service card with the Service Letter ‘C’.
- Please use h-dnet or Talon to confirm the recall status of all vehicles that come into your dealership.
- As of April 7, 2005; 19% of the affected vehicles for recall 0118 have been corrected.
- When placing an order for this recall:
 - ALL vehicles must be inspected prior to placing the order.
 - Do NOT place an order if the vehicle has not been inspected or if the vehicle does not require replacement.
 - All orders must have the VIN’s listed for the vehicles that require replacement.
- If the Fuel Valve assembly is not original equipment on the vehicle, but was sold over the counter or was installed at Pre-delivery, you should follow the applicable Credit Procedure on page 3 of Service Bulletin M-1167. Correctly fill out the paper claim form.
- NO electronic Warranty Claims will be accepted for this Recall.
- If you have any questions or need additional assistance ordering parts, please contact the Warranty Department at 1-800-664-██████ and use prompt # 4.
