

### **New Painted Part Number Reference Sources**

The following information was previously published in a dealer letter dated July 9<sup>th</sup>, 2007:

Beginning with 2008 model year, there are several changes to the reference material used to find painted part numbers. The 1989-2007 Harley-Davidson Painted Parts Catalog will be updated one final time and released in printed form as part number 99489-07A. This catalog is expected to remain in print for the foreseeable future.

2008 Harley-Davidson replacement painted part numbers will be made available on the **Service** section of **h-dnet.com**. This change will provide dealers with the ability to access updates as mid-year vehicles are launched in the future. It will also allow us with the ability to provide corrections to this information on a more frequent basis than the printed painted parts catalog.

2008 and newer Color Shop and Custom Color painted part numbers will also be located on the Service section of h-dnet.com.

Custom Vehicle Operations replacement painted part numbers will continue to be featured in the parts catalog as in the past.

Buell replacement painted part numbers and molded-in color body part numbers will continue to be featured in the parts catalog as in the past.

If you have any questions, please contact your SPOC representative.
