

2008 Softail Engine Guard Fitment Update

Please update your catalogs and make your parts personnel aware of the revised model year fitment listed. Please correct label fitments on any product in dealer inventory.

With the exception of the two Essential Riders Kits listed below, all updated kits are in inventory at this time and available to order. The updated Essential Riders Kits are expected to be available early in the first quarter of 2008.

The updated engine guard kits can be identified by a wider top mounting tab on the engine guard, which was revised to accommodate the resonance signature of the 2008 chassis.

No action is required on kits previously installed on 2008 models.

Chrome Front Engine Guard Kit

49200-07A: Fits '00-later FXST, FXSTB, FXSTC, FXSTD, FXSTS, and FXSTSSE models (except models equipped with Extended Reach Forward Control Kit P/N 49171-04 or 49223-04).
