

### Sportster Side Cover Mounting Clips

2009 XL Models use only two mounting clips (part number 70417-04B) to attach the left side cover. The front slot, shown in the image below, exists in an effort to increase retrofit ability, but is **NOT** used in 2009 Sportster applications. The 70416-04C clips used on previous models should not appear in the '09 XL Parts Catalog.

The following corrections need to be made to page 117 of the 2009 Sportster Parts Manual: Remove line 19 completely, Remove “rear” from the line 20 part description.

~~19 70416-04C CLIP, side cover, front mounting CN/CP/CR/CS/CT/CV/CX/CZ~~

20 70417-04B CLIP, side cover, rear mounting (2) CN/CP/CR/CS/CT/CV/CX/CZ

'04-'08 XL models require quantity (1) of 70416-04A clip in the front position and quantity (1) of 70417-04B clip in the rear position.

'09 and later XL models require quantity (2) of 70417-04B clip used in both mounting positions as shown below.

Correct fitment of 2009 XL Model Side Cover
